# Denim Therapy

Here's good news for urbanistas with tattered denims: The miracle workers at the web-based Denim Therapy can repair

your holey (or should we say holy?) jeans. Just send in your threads and Denim Therapy will place cotton fibers into your existing denim fabric to replace undesirable rips and tears. It's generally a two-week turnaround time, but it's well worth the wait.

**Denim Therapy** is filed under urCLOSET: Jeans Repair.
